Hello and regards

I am mr. Mahesh jagannath kamath journalist and asylumseeker applicant and today I have the interview for my dublin procedure and the interviewer is not respecting the protocol , there is no english to french or English to German translator just the interviewer and me. There were several argument when he asked me the question and I did gave the answer which is relevant to my dublin asylum case which he did not mentioned at all. There were several time when I was giving the answer for the asked questions he interrupt me and then when I request him to mention this in protocol He straight forward refused to do so. To intimidate me he first call the security and did several drama that he is not continuing the interview and then he did start again the interview. Now he also said there will be so translation he will directly give me the document the projol page of interview maybe in which I should do signature which I refused therefore he again called the security and now I am in waiting room. This interview was not at all with respect to the dublin procedure protokol and therefore I will submit the amtmisbrauch case against the interviewer in this matter to the responsible authority. I am not here to play any games and I don't want my asylum case to be treated as a daily affair came by the authority were the officer the interviewer is not respecting the protocol and putting verbal and taktic pressure on me to finish the incomplete interview.

Thanks and friendly regards
